#### HARD LICK.

The Charlotte Observer evidently knew that it was striking the "Star" a heavy lick when it asked the " Star" if it knew of any frauds, &c. But the "Star" did not have the pluck to answer candidly and say, as it should, yes: we knew that Canaday was defeated for Congress by the most outrageous frauds ever committed by man.

The Democrats committed all kinds of frauds, and only carried the county against Canaday 72 votes, but they thought that would not be crough, so they threw out one township which give Mr. Canaday 64 majority, and declared the county for Shackelford by 136 majority. A Democrat is always equal to the occasion of giving his candidate a majority, and it does not matter what the means required:

The Republican, pubished at Raleigh by Hon J. H. Harriss, is out demanding that the colored voters shall be recognized by the government in the official emoluments of the party appointments. We have at all times advocated this course on the part of the Republican party, and we shall continue so to do. We hope General Garfield will do justice to our colored fellow-citizens. We advise the Republican to continue its good work, and everything that we can do to aid in the accomplishment of this equitable measure shall be done.

#### Prophecy Coming True.

Goy Z. B. Vance to the Democrats of this city in 1876, said: "We are sure of success this election, (1876) and when we get in power (meaning the Demo. crate) we will stay in [power forever." What did Judge Meares mean by this prophesy? Did he mean that the Democratic poll-holders would throw out votes encugh to cleet their candidates every time? If he did, then his prophefy is coming true. We have always looked upon Judge Meares as a very bitter partizan, but a perfectly honest man But if be intended the above remarks in the way they have been construed by his Democratic friends, then our high opinion of him would be wrong.

#### OUR ARMY TOO SMALL.

Gon. Sherman has made his annual report to the Secretary of War, and recommends again as he did last year an increase of the army to 30,000 rank ard file or enlisted men. Gen Sherman states that the number of enlisted men in the army is 24,214, which are diminished by details as clerks for recruiting stations, sick, detached service and other service, so that the available force is not more than 20,-000 enlisted men. He, therefore, agrees with Gen. Sheridan, the Lt General, that the army is too small in enlisted men for the heavy duties imposed upon it, and is overworked. He therefore, recommends that Congress te asked to increase the number of enlisted men in the regular line to such an extent as to give full 25,000 colisted men, and make also provisius for Ordnance me ), "the Engineer Battalions, "Hospital Stewards," and so forth, in the same manner as has already been done for the Signal Corps. He also adds : -

in this connection, I will venture to call your attention to the fact that the Revised Statutes, edition of 1878, Section 1,115, Chapter I., defining the organization of the army, limits its strength to "not more than 30,000 enlisted men," but subsequent appropriation bills by provisos have limited the expenditures to 25,000 enlisted men. Still the legal strength is 30,000 calis ted men; and that number is the least possible at which we can maintain the possible at which we can be present organization of forty regiments present organization order, discipline in anything like good order, discipline and economy, and I infer this end can be reached by simply omitting the provises in the next appropriation bill.

The combatant force remains to-day

the combatant force remains to day the same that it was last year, composed of ten regiments of cavalry, five of artillery and twenty-five of infantry; but under the proviso "limit" 25,000 men, the companies are too small for proper discipline or economical service; and I am convinced that the proposed increase of enlisted men will double the efficiency of the Army, and hardly be ey of the Army, and hardly be

New York to Chicago. The Southern Pacific Railroad is approaching com-pletion, traversing Kansas, New Mex-ico, Arizona and Southern California,

is making rapid progress from Bismarck westward. These railroads are penetrating every valley and every district of country which hold out an inducement to settlement. The railroads have completely revolutioned our country in the past few years, and impose on the military an entire change of policy. Hitherto we have been compelled to maintain small posts along wagon and stage routes of travel. These are no longer reeded, because no longer used, and the settlements which grow up speedily along the new railroads afford the security necessary, and the regular stations, built for storage at convenient distances, afford the necessary shelter for stores, and for the men when opera-

ing in the neighborhood. There words below in relation to the colored enlisted men in the Army are so bold and noble that we quote them entire, as a refreshing vindication of the devotion of the Army to the Constitution and law, and regard for that part of the Army which is colored:

COLORED MEN IN THE ARMY. In this connection I desire to state that in my judgment the requirement that all the enlisted men of the 9th and 10th Cavalry, and of the 24th and 25th Infantry shall be colored men, whilst the officers are white, is not consistent with the mendment to the Constitu-tion referred to. All men should be enlisted who are qualified, and assigned to regiments regardless of color or pre-vious condition. Such has been the law and usage in the Navy for years, and the Army would soon grow accus-tomed to it. No body of men on earth has more reverence for the Constitution and the laws than the Army, and I pledge my own and the good faith of all in the service to enforce faithfully every part of the Constitution of the United States and every law made in Judge O. P. Meares, who introduced pursuance thereof. General Schofield is shundantly able to enforce the laws and regulations of the Academy.

> admirable report of the great General of our Army, who is a statesman as well as a great soldier. It has always been the average opinion of Americans that the treatment which the Army receives from Congress, is incompatible with the value of that important branch of the service to which the nation owes so much even now in time of peace for onerous service, and in which every good thinking American looks with pride

I have been watching their capers and chat. Some of them think he can come it. A portion think Canaday will be admitted in place of Shackleford, and a good many of them are saying that Congress will order a new election. I see by your paper that Canaday will contest for the seat, and he is right. He is a popular man in our County and got Democratic votes and a good many more of that party will vote for him if the thing has to be tried ever. He was cheated out of his election by Democratic meanness and fraud in your city and in other counties. I hope you will go on and uncover these tricky and bad fellows. Fraud in Halifax-Democratic VIIlainy-Outrages of the most Scandalous Bort.

TO THE EDITOR OF POST: I write the following letter to show to the world what a free ballot and a

fair count means in Halifax county: It has been rumored around that Halifax county had gone Democratic. In justice to myself, and to the colored cit zens of Halifax county, I write this letter in order to show you how the county did go Democratic. One reason I give, is, in Brinkleyville township voting. Second. In Caledonia township 250 Republicans were prevented from voting. Third. In Enfield township 200 Republicans were prevented from voting. Fourth. The registration books of Butterwood township were stolen, which kept 400 Republicans from voting. And in Palmyra township 100 were prevented from voting, and what arrived.

And in Enfield township where the Republicans had a majority of five or six hundred with a fair count, and where all the colored people voted the solid Republican ticket, at right, after the voting, the poll-holders adjourned and went to supper, each man or rather poll-holder taking with him two or three of the boxes. After supper they came back and counted out the votes. It turned up in the count that the vote of seven hundred Republicans, had by some means been changed to Democratic votes, Mr. Hubbs was given 79 votes, A. J. Jackson the Republican candidate for the Senate was given 89 votes, and H. E. Davis 100 and R. J.

There is hardly anything like an impropriety in several gentlemen like Gov. E. D. Morgan raising a fund of \$250,000, the interest of which shall be a kind of Pension for the oldest President. It is doing, however, what the nation ought to do. To leave a man who has worn the highest magisterial robes in abject poverty as was the case with Jefferson, Munroe and some other of the ex-Presidents, is unbecoming the Republic. After a man bas been s President he ought not to be allowed to die in penury and to be left without a gravestone, but ought to be provided for by the government itself.

Choice extracts: restoration of her slaves, when they had escaped into the free states. Even this aw was of little benefit to the south, as stances." Page 382.

On page 383 this "History of the United States" shows how John C. Calhoun's chief aim during his political life was "to strengthen the power of the south in the government, so that she might be able to resist the encroachments of the north upon her righte." Alter this declaration of Mr. Calhoun's patriotic purposes, the book shows the "encroachments of the north" by its voting for John C. Fremont for President, and the further encroachments of the north by voting for Abraham Lincoln in 1860. It will be perceived that the children of Virginia are taught that the election of Lincoln was "a virtual commencement of hostilities," that for mob violence from enjoying their constitutional rights in the north" and that "it was time for them to abandon the government which bad fallen into the hands of their avowed enemies." We quote the whole thing from page 321:

"At the Presidential election in the fall of 1860, Abraham Lincoln, a secslavery. A large portion of the southern people, regarded his election, under the circumstances, as a virtual comprevented by mob violence from enoying their constitutional rights in the north, that the spirit of abolitionism would now, under the countenance, the aggressive; and that it was time for them to abandon a government which avowed enemies.

Then this "History of the United States from the carliest times" asserts on page 400, that:

> PRINCES' FAVORS: A Story of Love, War and Politics. By Wilson J. Vacce. The American News Company, N. Y., Publishers.

The above very excellent novel was received by us some weeks ago, but owing to the press of campaign matter we neglected to notice it, for which we offer our apologies to our personal friend Col. Vance. We take pleasure in recommending the book to all lovers of fiction. We publish below an edito-

rial from the Toledo, Ohio, Journal; One of the crispest and most clearut stories of the times is Captain Vance's story of "Princes' Farors," an outgrowth of long and keen observance of public affairs and of personal participation in many of the events recorded. The book opens with very tender reminiscences of the days when the boy hero, Randolph Remden, said good-bye to his mother for gallant service in the war. The very first chapter touches the fountain of tears bringing about at the start very close and sympathetic relations between the author and his reader, Captain Vance had, what many authors deem of not the slightert importance, a story to tell; and he tells it well, with all the pathes of a simple parrative and all the en-

The feminine characters of the are most tenderly drawn from Cantain Remsen's early love, Lizzie, the heroing occurrence. Without discussing here of the days of battle, to Maude Lawton, and her mother, Tom Lawton's widow and Little Bessie with her sad and touching story of desertion and neglect, Captain Vance had done well in supplementing his long-continued and brilliant newspaper work with so suc cessful a venture into the field of literature. #### CELEBRATED LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint, DYSPERSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

DAIN in the right side, under the I edge of the ribs, increases on pres-sure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extenshown the LIVER to have been exten-sively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL. For all bilious derangements, and as a simple purgative, they are un-equaled.

#### REWARE OF INITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid, with the impression Dr. McLane's LIVER PILLS.

The genuine McLane's LIVER Pills bear the signatures of C. McLane and FLENING BROS. on the wrappers. Insist upon having the genuine Da. C. McLane's Liven Pills, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently but

## SUNDAY MODERNO, Nov. 21, 1880. Op and Wirgin

The syand of orth Carolina. It is impossible to give a tu'l report of the Syrod, We can only give something about the Synod in brief

fest connectness and zeat, his solemn Ordinary, and argent statements, his past services, his tender devotion to the cause, S. Good Ordinary, all conspired to make his address one to be remembered, which left its impress not only on the Synod but on the community.

Of Dr. Hepburn, formerly in charge of the First Presbyterian Church here, Cotton, and now President of Davidson Co:- Spirits Turpentine Rosin, lege it says:

Another notable address was that of Rev. Dr. Hepburn, president of David-sen College, on education, and chiefly on college education and the claims of Davidson College. He clearly defined the distinction between a college and a university; his exposition of what a university really is in the European view of it; his presentation of the claims and advantages of Davidson College so modestly and bravely stated; his defense of denominational schools -aot to teach denominationalism but to elucate and drill the mind; his plainly declared views of the uses of an education and the value of the human mind to be educated, and many other points not here noted, were all well put and produced marked effect on the large and exceed ingly intelligent audience gathered to

One of the most interesting discussions of the Syned was that evoked by the report on evangelistic work in the State, engaged in by Rev. C. M. Payne, of Wilmington; Rev. Roger Martin, of Shoe Heel; Rev. S. M. Smith, of Washington; Rev. Joseph Evans, of Robeson, and Rev. S. H. Chester, of Lowesville. We were interested not only in the views presented in these able though imprompta speeches, but in the illustration of readiness and freedom, of earnestness and candor which they afforded. Mr. Chester's remarks.on the evangelization of the colored people awakened special attention and

were full of interesting statement. The meeting on foreign missions, the reports on other enterprises of the church, the sailies of members on un expected issues added variety and lif to the business of the venerable body

The Synod adjourned on Saturda night. SUMMARY OF EVANGELISTIC WORK The Synod of North Carolina has five Presbyteries, 226 churches and 18,356 communicants. Of the 226

churches, 161 have contributed and 65 have not. The total contributed to this cause in the Synod is \$2,300, or about 121

cents per communicant. The Synod includes in its bounds 9f counties. Of these there are 29 coun- tations. ties with no Presbyterian church whatever, and 24 with but one in each, destitution. For this vast field 'bere low Dip and Virgin. destitution. For this vast field there are two evangelists employed for all their time, and five for about one-fourth of their time each, and these chiefly in old occupied territory, and not in purely for November opened steady in New missionary territory.

There are two colored licentiates, four at 10.92 cents, and closed steady at tations. colored churches, five Sabbath schools, 1088 cents. The following were the and several white preachers laboring official quotations here: for this class.

The Synod appoints for the Union Good Ordinary, Theological Seminary 12 out of the 24
directors, and have named for ready directors, and have named for re-ap-pointment: Ray, J. Henry Smith, D. D., Good Middling, Rev. H. G. Hill, and Rev. E. Nye Hutchinson.

Mr. Brown of Faltimore has built for the Institution a commodious library building, and a private source has endowed \$20,000.

The statistical report to the General

Assembly is as follows: The Synod of North Carolina respectfully reports to the General Assembly of the Presbyterian Church in the United States that it consists of fire Presbyteries, and that these Presbyteries consist in whole of 115 ministers and 227 churches, having under their care S licentiates and 16 candidates, viz: Orange Presbytery -29 ministers, 61 churches, 1 licentiate and 7 candidates. Concord Presbytery-23 ministers, 36 charehes, 3 licentiates and 3 candi-

dates. Favetteville Presbytery--19 ministers, 50 churches, 2 licentiates and 1 candidate.

Wilmington Presbytery-16 ministers, 33 churches, and I licentiate. Mecklenburg Presbytery-28 ministers, 47 churches, 1 licentiate and 5 candidates.

The Synod further reports that its next stated meeting will be held in the First Presbyterian church, Salisbury, N. C., Wednesday, November 2, 1881.

Is a purely vegetable bitter and powerful tonic, and is warranted a speedy and certain cure for Fever and Ague, Chills and Fever, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Periodical of Billions Fever, and all malarial disorders. In miasmatic districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only premonitions of severer symptoms which terminate in the ague paroxyzm, succeeded by high fever and profuse perspiration.

It is a startling fact, that quinine, arsenic, and other poisonous minerals form the basis of most of the "Fever and Ague Preparations," "Specifics," "Syrups," and "Tonics," in the market. The prep-aral ons made from those mineral poisons, arations made from those mineral poisons, although they are palatable, and may break the chill, do not cure, but leave the maiarial and their own drug poison in the system, producing quinism, dizziness, ringing in the ears, headache, vertigo, and other disorders more formidable than the disease they were intended to cure. Aven's Acur Cure thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It contains no ominine, mineral or any thing contains so quinine, mineral, or any thing that could injure the most delicate pa-tient; and its crowning excellence, above its certainty to cure, is that it leaves the system as free from disease as before the
